MSBA Building Process

Over the past 18 months •

Over 15,000
Collective Hours •

The Town of Somerset & its professional team has been completing a comprehensive Feasibility Study & Schematic Design with **VERY SPECIFIC** guidance from the **Massachusetts School Building Authority** (MSBA).

Analysis, investigation, reporting, planning, meetings, design, discussion, and educational visioning & brainstorming discussions.

Over 1,600 Pages of Reports & Documentation

- Haz-Mat Inspection & Report
- Phase 1 Environmental Assessment
- Plumbing Evaluation
- Fire Protection Evaluation
- Electrical Evaluation
- Heating & Ventilation Evaluation
- Technology Systems Evaluation
- Structural Evaluation

- Educational Program Analysis
- Educational Visioning Program
- Building Evaluation
 - Accessibility Review
 - Energy Code Review
 - Building Code Review
 - Historical Analysis
 - Department of Elementary & Secondary Education (DESE) Review
- Space Summary Spreadsheets

- Site Evaluation
- Existing Conditions Site Survey
- Phase I: Traffic Study Impact Analysis
- Geotechnical Investigations
- Site Utility Review
- Permitting Review
- Comparison Matrix
- Sustainable Design Review

Improvements & Repairs to SMS

Roof Projects

- 2004 Roof replacement
- 2019 Replace five rooftop exhaust units
- 2015 *Solar array installation*

Auditorium

- 2014 Curtain replaced with the curtain from SBRHS
- 2016 Ceiling was repainted and mold removed
- 2016 Seats refurbished
- 2014 PA system replaced with the SBRHS PA

Media Center

- 2018 Carpet replaced, New air & heat conditioners installed, walls painted
- 2020 All new ceiling tiles in library
- 2020 *Mold remediation*

Technology/Security

- 2016 Technology infrastructure updates
- 2012 Installation/upgrade of security cameras
- 2018 *Main office relocated along with safety vestibule installed*
- 2019 *Replacement of a few external doors*

Miscellaneous Indoor Projects

- 1995 Remove all carpet and install VCT tile
- 1999 *Replace boiler with aerco boiler*
- 2004 Install two ADA-compliant bathrooms
- 2015 Music room 44 renovation/wall replacement
- 2017 Locker replacement
- 2017 Wireless clock replacement
- 2015 Main office/ guidance suite rest rooms flooding issue resolved
- 2019 Student dining room tables replaced with the Somerset High School dining tables
- 2015 Main foyer floor tiles replaced and removal/abatement of asbestos tiles
- 2019 Sub separate classrooms added with various safety upgrades
- 2013 Electrical upgrades in 6th grade area
- 2010 Sinks replaced in student restrooms
- Ongoing Repainting classrooms and hallways
- 2013-2015 Lighting in the building changed to energy efficient lighting
- 2015 *Installed boiler controls*

Miscellaneous Outdoor Projects

- 1997 Repair all control joints on outside building
- 1997 Remove oil tanks in ground
- 2001 Resurface parking lot
- 2000 Install ADA-compliant ramp going to/from grade 6 area
- 2020 Fish pond in the courtyard was refurbished
- 2016, 2020 Remove rotted trees from courtyard and other areas

Maintenance & Capital Improvement Plan

**Goal: To provide a clean, orderly, safe, cost-effective, and instructionally supportive school environment that contributes to the school district’s mission of educating our children to meet the intellectual, physical, and emotional demands of the 21st century.*

The MSBA has adopted criteria based on industry best practices as a **prerequisite for MSBA funding** and for the determination of the allocation of maintenance incentive reimbursement points on eligible projects.

*Eligibility Period
(Module 1)*

- District was asked to submit documentation that demonstrates that the district is actively performing routine and capital maintenance to its school facilities. Strategy for maintenance and capital planning and budgeting to ensure the long-term operation of school facilities

1.22%

Additional MSBA Reimbursement

1. Staffing
2. Written Maintenance Manual
3. **Predictive/Preventative Maintenance**
4. **Work Order System**
5. Budgeting
6. Facilities Condition Index (FCI)
7. Building Inspections Plan
8. **Long-Term Ten-Year Facility Capital Improvement Plan**
9. Facility Staff participation in Capital Projects
10. Segregated Local Capital Projects Fund
11. Commissioning, re-commissioning and retro-commissioning
12. Energy Conservation and Indoor Environmental Quality
13. Performance

▶ *A component of effective maintenance typically includes preventive maintenance which is defined by activities that are performed at regularly scheduled intervals to prevent premature failure or to maximize the useful life of a building system and/or facility*

▶ *A work-order system is a way of systematically tracking planned and completed maintenance activities, including scheduled preventive maintenance and emergencies*

▶ *A long term (5-10 year) capital improvement plan is a systematic approach to addressing deferred maintenance and the replacement of building components that have reached the end of their useful life*

**Planning Guide for Maintaining School Facilities*

Maintenance & Capital Improvement Plan

Summary of Five Year Capital for Somerset Public

YEAR	PROJECT	DESCRIPTION
YEAR 1	PT17	MIDDLE SCHOOL LOCKER REFINISHING
YEAR 2	PT18	MIDDLE SCHOOL WIRELESS CHARGE STATION
YEAR 3	PT19	MIDDLE SCHOOL REPAIRMENT AND RECONSTRUCTION

SOMERSET MIDDLE SCHOOL
FACILITY
MAINTENANCE
MANUAL

for The Somerset
Middle School

Effective planning doesn't stop at MSBA review, it continues through the design phases (DD and CD) as an essential component of the process...

**Why did the School Building Committee,
School Committee, & Board of Selectmen
decide on the Grades 6-8 New
Construction Option?**

Base Repair
(Code Required Upgrades)

**6-8 Addition /
Renovation**

**6-8 New
Construction**

Option 4 | 7

Conceptual New Building Plan (5-8)

Option 2

Conceptual Add/Reno Building Plan (6-8)

Option 4 | 7

New Building Plan (5-8)

Evaluation Criteria:

1. Town-wide Master Plan Integration
2. Accommodate Educational Program / Educational Visioning
3. Disruption to Education during Construction
4. Schedule
5. Cost / Budget
6. Sustainability / Energy Efficiency

Option 4

Conceptual New Building Plan (6-8)

ONLY Code Required Upgrades to existing Somerset Middle School

- **DOES NOT** address long-term goals of the Town-wide Masterplan
- **DOES NOT** address educational space deficiencies
- **DOES NOT** address poor existing building natural daylighting / indoor environmental quality
- **DOES NOT** address poor existing building organization
- **DOES NOT** address existing site stormwater drainage issues
- **DOES NOT** address deficiencies in site amenities/outdoor educational space/playfields
- **EXTENDED** educational disruption during construction
- **EXTENDED** phased occupied construction timeline

Why Base Repair (Code Required Upgrades only) is ***NOT*** an Option

Existing Middle School Deficiencies

- ❌ **Classrooms are undersized** and do not provide access to modern day technology
- ❌ **Classrooms *DO NOT* meet State standards**

- ❌ Toilet rooms do not have code required fixture counts for assembly requirements
- ❌ Locker rooms **do not comply with MAAB** requirements
- ❌ **No accessible seating is provided** in the Gymnasium

- ❌ **Library Media Center and Student Dining are undersized and lacks 21st century interconnectivity**

Existing Middle School Deficiencies

Corridors are too narrow and **do not provide sufficient egress width**

• Approximate corridor width: **7'-0" clear**

No accessible seating is provided in the Auditorium and Lecture Hall

• The ramp in the auditorium **does not comply with ADA and MAAB requirements**

• No intermediate landing

• Starts at entry door

• **Stage is not accessible** from within the Auditorium

The Boiler Room is subterranean, located below the kitchen, and the existing building **does not have under drain system or perimeter foundation drain system**

• **Water infiltration** has caused deterioration of the electrical conduit

• Systems are antiquated and **beyond the end of their service life**

13

Existing Middle School Deficiencies

• 29 bathrooms will have to be completely demolished to meet MAAB requirements

-  Ramp does not comply with ADA guidelines
 - Ramp will require **complete reconstruction**
 - Adjacent spaces will need **complete reconfiguring**

-  Toilet rooms **do not** comply with **ADA and MAAB guidelines** and requirements
-  Requires **complete demolition** of adjacent walls and space
 - **Fixture quantities are not currently met**

Option 2 | Scheme 3 **Addition / Renovation**

Conceptual Add/Reno Site, Building, & Phasing Plans (Grades 6-8)

- Most Expensive long-term solution
- Educationally disruptive
- Complicated construction process
- 42 month long construction timeline
- Many unknowns with renovation of existing building
- Demo existing 1969 open classroom building & Existing Gymnasium

Construction Phasing:
Total Duration
+/- 42

Option 2 | Scheme 3

Addition / Renovation

Conceptual Add/Reno Site, Building, & Phasing Plans (Grades 6-8)

- New two-story academic wing
- New athletic facility
- Re-use & renovate existing 1965 building
- Newly expanded Media Center
- Re-use & renovate existing Auditorium & Gym Hall
- Re-use existing 1969 open room building & Gymnasium

\$91 million
Estimated Total Project Cost

Preferred Schematic Report
Conceptual Cost Estimate Comparison
Somerset Middle School

Option	Type	Size	PM&C Cost Estimate	DAEDALUS Cost Estimate		
Option 2 Scheme 3	Add/ Reno (6-8)	139,000 SF	\$73,825,000	\$73,741,000		
Option 4 Scheme 8.4	New (6-8)	131,900 SF	\$68,782,000	\$70,437,000		
Option 4 Scheme 10.5	New (6-8)	131,900 SF	\$68,100,000	\$68,824,000		
Option 7 Scheme 8.3	New (5-8)	154,800 SF	\$76,300,000	\$74,608,000		
Add Alternates			PM&C Cost	DAEDALUS Cost		
Cost to Reinstall Existing 300kW Photovoltaic (PV) System			\$1,008,000	\$1,000,000		
Cost to Increase Auditorium by Approx. 3,000 SF (200 Seats)			\$1,650,000	\$1,650,000

SMS SOMERSET MIDDLE SCHOOL
Conceptual Cost Projections: Somerset Middle School
Estimated Cost to Town of Somerset (Middle School)

*Includes +/- 30,000 GSF of 5th grade Program Space and associated Soft Costs - **Approx. \$11,500,000**

Construction Phasing:
Total Duration **16**
+/- 42 Months

Addition / Renovation vs New Construction

6-8 Addition /Renovation

MOST EXPENSIVE long-term solution.

\$91 million (estimated total project cost)

MOST educationally disruptive solution.

MOST complicated construction process – multi-phased, & occupied

LONGEST construction timeline due to the complex phased occupied construction process (42 months + site development).

MOST financial unknowns and exposure during construction due to the nature of renovating an existing building.

DOES NOT result in the most ideal building organization related to security, sightlines, wayfinding, and natural oversight.

DOES NOT result in the most ideal solution for natural daylighting.

DOES NOT provide the most energy efficient solution.

6-8 New Construction

▶ **MOST COST EFFECTIVE** long-term solution.

▶ **\$85** million (estimated total project cost)

▶ **LEAST** educational disruption to students.

▶ **LEAST** complicated construction process.

▶ **SHORTEST** construction timeline.
24 months + site development

▶ **LEAST** financial unknowns and exposure during construction.

▶ **PROVIDES** the most ideal building organization related to security, sightlines, wayfinding, and natural oversight.

▶ **PROVIDES** the most ideal solution for natural daylighting.

▶ **PROVIDES** the most energy efficient solution.

Construction of a **NEW 124,200 GSF** middle school, serving grades 6–8, is the ***right-sized***, most ***fiscally responsible*** and ***educationally appropriate*** solution to creating a ***safe, sound, and sustainable*** middle school learning environment and ***community asset*** for the next **50+** years.

Brayton Avenue

Cost Conscious Design Approach:

Throughout the Feasibility Study and Schematic Design process, the School Building Committee, School Committee, and Board of Selectmen have been **mindful of the financial impact the project** will have on the Somerset taxpayers, while planning a school that will serve the town for the next 50+ years. The Committee's have explored multiple ways to reduce the cost of the project, all resulting in a lower project cost to taxpayers.

- Selection of Option 4 – Scheme 10.5 (**6–8 New Construction** vs phased occupied renovation)
- **Energy Efficiency Partnerships** with local utility programs (NGRID, Liberty Gas): Energy Efficiency Rebates
- **Proactive Building Maintenance Program** (Additional 1.22% MSBA Reimbursement)
- Sustainability / Energy Efficient Project (**Additional 2% MSBA Reimbursement**)
 - LEED (Leadership in Energy and Environmental Design) Certification
- Strategic positioning of the new building:
 - Building placement optimizing the existing topography
 - Building organization and orientation based on solar path (**maximize natural daylighting while minimizing operating costs**)
 - **Building placement** to reduce gas, electrical, and water services from Brayton Avenue and Read Street.
 - Away from the existing building to reduce potential educational disruption during construction.
 - Away from the existing building to reduce occupied construction phasing and construction timeline.
- **Simplified and efficient organization** of the new building floor plan
- **Reduced footprint** of the new building (via 3-story building)
- Stacked academic floor plan to **simplify building structure and building constructibility**
- Minimize Roof Transitions
- Use of cost effective, long lasting, durable, low maintenance materials. (Natural Stone, brick, cementitious panels, glass fiber reinforced panels (GFRP))

What is the **ESTIMATED COST** of the Proposed Project?

Project Design Phase		100% Schematic Design
		February 2021 Grades 6-8
		124,200 GSF
▶ Estimated Construction Cost		\$69,956,365 million
▶ Estimated Total Project Cost		\$85,020,490 million
▶ Estimated Town Share		\$52,067,785 million

Approximately
\$563 / square foot
Construction Cost
(Including Add Alt #1
PV reinstall)

Estimates assume a construction
start of Summer 2022

1. Third party cost estimates are not represented as the final construction costs, as the information they are based on are Schematic Design Drawings.

2. Estimates assume public bidding under Chapter 149 (Design - Bid - Build) of the MGL.

Preliminary Tax Impact Analysis

20 YEARS		3% INTEREST RATE			
CATEGORY	BASE	\$100,000 Property Value		\$311,000 Property Value	
		Per Year	Per Month	Per Year	Per Month
TOTAL	\$85.0M	\$120	\$10	\$371	\$31
FSA	\$800K ¹				
MSBA	\$32.9M				
TOWN	\$51.3M				
25 YEARS		3.25% INTEREST RATE			
CATEGORY	BASE	\$100,000 Property Value		\$311,000 Property Value	
		Per Year	Per Month	Per Year	Per Month
TOTAL	\$85.0M	\$105	\$9	\$328	\$27
FSA	\$800K ¹				
MSBA	\$32.9M				
TOWN	\$51.3M				
30 YEARS		3.5% INTEREST RATE			
CATEGORY	BASE	\$100,000 Property Value		\$311,000 Property Value	
		Per Year	Per Month	Per Year	Per Month
TOTAL	\$85.0M	\$97	\$8	\$302	\$25
FSA	\$800K ¹				
MSBA	\$32.9M				
TOWN	\$51.3M				

¹ Feasibility study was paid with cash appropriation.

Assumptions:

* Estimated interest rates ranges are subject to change.

* Tax rate impact assumes no growth in assessed value over the life of the bonds.

* Tax rate impact assumes the residential to commercial/industrial/personal property tax rate shift will remain constant over the life of the bonds.

* Tax rate impact assumes the average home value will remain constant over the life of the bonds.

* Bonds issued on a level debt service basis.

* Data based on information provided by Hilltop Securities, Inc.

Vote #1

Town Meeting Article

FAILED
VOTE

PASS VOTE

PASS
VOTE

Somerset **will forfeit** the opportunity to receive the \$30–35 million in state aid offered by the MSBA

Vote #2

Ballot Vote

The Town of Somerset will enter into the MSBA's Module 6: Project Scope and Budget Phase

The Town of Somerset will be required to **withdraw** from the MSBA Grant Program

If eligible, Somerset will enter into the feasibility study again

The Town of Somerset will have to **submit another Statement of Interest (SOI)** and receive an invitation into the Eligibility Period Phase of the MSBA Process

an invitation that took more than four years for the initial round

September 2024

New Somerset Middle School Opening

(Current 2nd, 3rd, & 4th Grade Students to be the first to attend the New School)

The Design Team will proceed with Design Development and Construction Documents

The Project will go out to Bid and will enter into the Construction Phase

Frequently Asked Questions

- I. What is the role of the Massachusetts School Building Authority (MSBA)?
- II. Why did the SMS SBC/SC/BOS all endorse the construction of a new 6-8 Middle School instead of proposing to expand & renovate the existing building?
- III. What are some of the existing building challenges?
- IV. What are the safety & security measures included in the proposed project?
- V. What is the project timeline?
- VI. What happens if the debt exclusion vote DOES or DOES NOT pass in May 2021?
- VII. What are the educational & community benefits associated with the new middle school?
- VIII. What is the estimated cost of the project & what does it include?
