

FREE Meals for All Students!

For the upcoming 2024-25 school year, Somerset Public Schools and Somerset Berkley Regional High School is participating in the Community Eligibility Program (CEP), serving meals to students at no cost and without the need for families to complete meal applications. This means students will have the opportunity to enjoy Breakfast and Lunch for free throughout the academic year.

CEP offers a great opportunity for everyone to eat together in the cafeteria and hopefully make it easier for students and families to confidently check breakfast lunch off their list. We're excited to serve even more students in the Somerset and Berkley community this year, helping to fuel busy days with favorite menu items and a variety of delicious new recipes!
